Last weeks frenzied pace calmed but most prices continued on an upward trajectory. SPF remained the hottest lumber species buoyed by strong order files. SYP trading slowed and more wood was visible in the pipeline. DF studs and plate posted modest gains. Last weeks curtailment announcements from two SE OSB mills continued to reverberate across the country prompting solid increases. Many OSB producers remained off the market for the second week in a row. Improved weather and a promise of more to come gives the mills a reason for optimism about near term prospects.
