Lumber and panel markets saw their strongest week in months. Buyers stepped off the sidelines as perceived downside potential disappeared. Fires in the west and a couple of limit up days in the futures market added a sense of urgency. DF studs were a hot item as mills found a trading level and began to raise quotes. Many were able to sell their August production and extend order files out into September. After months of consecutive double digit drops SYP bottomed and rebounded. 2x4 and 2x6 led the way. SPF saw increased activity and also bounced off of the bottom. OSB continued to build on last weeks increases. If you are still waiting for the bottom you missed it!
