Solid activity this week saw prices bumping in most species. Grn DF picked up with word that some volume buys made for leaner availability, especially on plate. SPF sales were solid, with the cash market trying to catch up with futures prices. Studs remain hot with this week seeing further gains. SYP narrows seem to be the exception, as they continue to cool for the second straight week. Winter weather in Texas and the SE didn't help their cause. OSB is percolating, with steady increases in most regions.
