Prices are F.O.B. mill, excluding freight

Buying activity picked up this week, especially in western species. DF and SPF saw higher prices as buyers replenished with little concern about further downside risk. In particular, 2x12 DF was in tight supply and selling at a premium. WSPF narrows saw price gains as well. OSB prices did not enjoy price appreciation as supply continues to be plentiful in most regions. Don't expect OSB to remain at these value levels for much longer.
