Prices are F.O.B. mill, excluding freight

Lumber markets saw markedly slower activity this week, and offerings were more plentiful. Buyers wary of getting caught at the top of the market bought sparingly. OSB continues to be high and tight, with rail issues still slowing the flow of product into many markets. Weather in some southern markets also helped slow sales activity and deliveries to jobsites. On the bright side - the days are getting longer and spring training has begun for the boys of summer.
