Markets remained on the upswing, but the pace of trading slowed. Lumber offerings were more plentiful than in weeks past, giving buyers hope that a top may be close. Transportation issues continue to be a major issue and are driving the dearth of inventory levels in many markets. OSB order files remain long and inventories tight on the heels of weather related rail issues in Canada impacting the CN and the CP railroads. Congrats to the US Women's Hockey Team for bringing the gold medal home against the Canadians.
