Most markets were either flat or only slightly changed in either direction. Weather in the South/Texas mucked up some jobsites and slowed takeaway. OSB mills in the South are searching for levels as takaway remains muted. As we roll into summer and family vacation season, it may become more difficult for markets to sustain any true type of runs, but time will tell. No substantive changes from the Fed means that the challenges to starting new projects remain for the time being. Next week should give a clearer picture as to the direction of this market in lumber and panels.
